Zorif Properties

Guaranteed rent for landlords. Property sourcing for investors.

Selected UK areas. Thoughtful conversations and clear next steps.

For landlords: guaranteed rent and company lets

With guaranteed rent, Zorif Properties rents your property on an agreed term and pays you a fixed monthly rent, even when the property is empty. The rent, the term and who looks after what are all set out in a written agreement before anything starts.

- We view your property and check whether it suits a company let or serviced accommodation
- We agree the rent, the term and the responsibilities with you in writing
- We furnish and prepare the property to the standard we agreed
- We handle guests, cleaning, regular inspections and the agreed maintenance
- At the end of the term, we hand the property back as agreed

> Not every property is suitable. Any arrangement depends on the property, the right permissions (for example from your mortgage lender, freeholder or council), suitable insurance and a signed agreement.

For investors: property sourcing and checks

- Your brief: budget, areas, strategy and what you want from the deal
- Sourcing: we look for properties that fit your brief
- Checks: costs, likely income, local demand and any restrictions
- Setup and management, if you choose to go ahead

Strategies we look at: Serviced Accommodation, Rent-to-Rent (R2R), HMOs and Buy-to-Let (BTL).

> Financial projections are estimates. Income and investment returns are not guaranteed.
